Support for your WordPress Site

WHAT COMES IN A PREMIUM SUPPORT SERVICE SOLUTION FOR WORDPRESS?

Backups

No one ever wants to have to have a backup. But when you need it, you'll be thrilled to know it's automatically created for you.

Core Updates

Now you don't have to log into your site just to check to see if you need to update your site. It's done for you, by professionals.

Security Scans

Security is the name of the game, and you don't really want to become a security expert do you? Now, you can trust professionals to take care of things.

Q&A

You have questions. With premium support you can get quick answers to your questions - by email or by phone, depending on the service provider.

SUPPORT

Theme & Plugin Updates

Now with automatic updates, WordPress core stays up to date. But shouldn't your premium themes and plugins get the same treatment? Now they will.

Uptime Monitoring

Never worry again about whether your site is up or down. Uptime monitoring helps support staff know if there's a problem, while also letting you know right away.

WHO SHOULD I CONTACT TO GET SOME HELP FOR MY WORDPRESS SITE?

There are at least six options for business owners that prefer to stay focused on their business rather than just their website. These six are listed below, with where you can find them. They each have details on their service offerings on their own site - with pricing starting as low as $29/month and as high at $199/month. The difference in pricing is often tied to how many hours of support are included in the package.

WHAT IF I WANT MORE THAN JUST SOME BACKUPS? WHAT IF I NEED SOME DEV WORK?

Sometimes you want more than just regular and routine maintenance for your site. The good news is that most or all of the players above offer packages where you can get a dedicated amount of hours to help with your site. When you need even more than that, **here are two other great options.**
